Assessment & Sale of Used Assets

Ref. No.: 1343-24101500

Overview and Technical Data:

**ENGIE COFELY Quantum X 060 S2C LL - Chiller
500 kW**

ENGIE

Year of Build: Feb 2014

Description:

Used ENGIE (Covely) chiller Quantum X 060 S2C LL turbo compressor

Year of manufacture 2014

Operating hours 3095 Bh (peak load)

The machine was only in operation on very warm days during the year.

Technical data:

- Compressor type: TT 300 H6-1-ST-D-O-CE
- Cooling capacity: 500 kW
- Refrigerant: R134a
- Filling quantity: 120kg
- Power requirement: 2x 70 kW
- Evaporator: VHMH46.250.116.2
- Refrigerant medium: water
- Refrigerant quantity: 71.5 m³/h
- GLT connection: Mod-Bus interface

According to ENGIE, the Quantum chillers can be converted to 513A refrigerant without any problems.

All QUANTUM-Air models are characterized by maximum efficiency, highest refrigeration capacity, convenient control and excellent serviceability. ENGIE experts developed a way to significantly reduce the refrigerant charge and thus reduce the environmental footprint - regardless of the refrigerant selected.

Quantum Series Features:

- Turbo liquid chiller for applications ranging from 250kW to 3MW
- Oil-free system
- High operational reliability
- Low maintenance, low vibration and quiet operation
- Multiple compressor design
- Precise control of re-cooling process by using variable performance controls

- Highest level of energy efficiency with outstanding performance figures (COP)

Technical Data:

Technical Data:

Control: CNC

Dimensions and Weight:

Height: 2.050 mm

Length: 3.360 mm

Width: 1.209 mm

Weight: 2.680 kg

Buyer Information:

Condition: Very good condition

Available: Q1

Sold as:

EXW (Ex Works - Incoterm)

VAT: 19 %

Buyers Premium: 16 %

Location: Germany
