## **Description:**

# Brand New QUASER MV 184P vertical 3-axis machining center for Sale

The QUASER MV 184P is a state-of-the-art 3-axis vertical machining center designed for precise CNC machining tasks. With a SIEMENS 828D CNC control and a main spindle speed of 12,000 min-1, it offers high machining accuracy and efficiency. The travel paths of 1,020 mm in the X-axis, 610 mm in the Y-axis and 610 mm in the Z-axis enable versatile machining of workpieces. The machine is equipped with a 48-station tool magazine, a chip conveyor and an IKZ system to maximize production output. Other features include a temperature-controlled oil cooling system for the main spindle and preparation for a 4th axis, which further increases the flexibility of the machine. Ideal for demanding manufacturing tasks that require high precision and productivity.
